PROFILE SUMMARY

I am a dedicated software developer undergoing a career transition to the tech industry, bringing a background in petroleum engineering and project development. My journey showcases perseverance and hard work, qualities that have enabled me to successfully acquire programming skills through continuous learning. With a commitment to professional growth and a proven track record of tackling complex projects, I am excited about contributing my diverse skill set to the dynamic field of technology.

PROJECTS

Travel Website—React, Tailwind Link

A dynamic travel website built with React and styled using Tailwind CSS for a seamless user experience

DRF-API — *Django, DjangoRestframework Link*

RESTful API for seamless user management, including creation, login, and updates. Illustrates strong backend development and API design skills.
